

## SQL for .Net Programmers: Moving Beyond Select, Insert, Update, Delete Without Becoming a DBA (Paperback)

By D M Bush

Createspace Independent Publishing Platform, 2016. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Who s got time to read? There s code to write! Are you a programmer? Do you hate to read more than you have to? Then this book is definitely for you. Each topic in this book is covered in just a few pages. But what it covers will set you on your way to programming using T-SQL. This book is for programmers. There are plenty of really thick books that go into all the details about each of the subjects that are covered in this book. But if you spend most of your day in languages like C#, those books have way more information than you need. The result is, you ll probably never find the information that would really help you in your day to day programming life because you are more likely to space out while reading, or you ll simply gloss over the important points trying to find the important points. Let s face it, you know you should know more about SQL than you do, but right now you don t even know what you don t...
