REVALORIZATION OF FOOD PROCESSING RESIDUES

Revalorization of Food
processing residues
I. Fruits residues

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | I. Fruits residues | Food production causes a huge amount of residues that cause environmental pollution. Obviously, many fruits and vegetables such as guava, olive, mango, orange, etc. are mainly marketed in processed form and resulted a great amounts of residues consisting of peels, pomace and seeds. Amazingly, phytochemicals can be used as antimicrobial or antioxidant agents, so we can use these residues by extracting these components from the residues and use...

Reviews

This book is definitely not easy to get going on reading through but extremely exciting to see. I am quite late in start reading this one, but better then never. I am pleased to explain how here is the finest book i actually have read inside my individual daily life and may be he best book for ever.

-- Mrs. Ellie Yost II

It is not difficult in go through easier to understand. It normally fails to price too much. I am very happy to inform you that this is actually the greatest ebook i actually have read through within my personal lifestyle and can be he best publication for ever.

-- Miss Ebony Brakus IV
