Sex Differences: A Land of Confusion (Paperback)

By Zachary Elliott

Lulu.com, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. It s the 21st century, and we are still being told that there are no differences between men and women, and that any differences we think exist are simply the result of social constructs--to claim otherwise is considered sexist and misogynistic. Sociologists point to disparities in the workforce, claiming these inequalities are the result of a patriarchal society. Yet what if these disparities could be explained through men and women s own choices and inclinations? What if, instead of simply resulting from the patriarchy, sexism, or societal-imposed gender roles, these differences can be explained through a multitude of factors--a mix of complex and interconnected variables? A look at the current scientific literature on sex differences and their origins, this paper reviews data from the fields of biology, psychology, evolutionary behavioral science, neuroendocrinology, and neurology, showing the complicated and nuanced nature of average sex differences between males and females.

Reviews

This book is definitely worth getting. It usually will not price too much. Its been printed in an extremely simple way in fact it is only right after i finished reading this publication where basically altered me, modify the way i think.

-- **Avery Daugherty**

This book is definitely not effortless to start on reading through but extremely fun to learn. Better then never, though i am quite late in start reading this one. It is extremely difficult to leave it before concluding, once you begin to read the book.
