Filesize: 5.94 MB

Reviews

This publication is really gripping and exciting. It really is basic but unexpected situations in the 50 % in the book. It is extremely difficult to leave it before concluding, once you begin to read the book.
(Prof. Salvador Lynch)

Createspace Independent Publishing Platform, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.GP 9 The Glass Planet 9: The Abduction N. M. REED Using fictional characters, the author takes the reader through a journey of discovery, uncovering the secret Extra-terrestrial origins of the bible and other god centered religions around the world. By combing through the new translations of the Nag Hammadi Library and the Dead Se Scrolls, N. M. Reed through her characters, an autistic boy of dubious breeding, his strange angelic sister, and his grounded rancher wife, and a host of others, find passages and old stories that seem to be the log of experiences of encounters of a third kind: actual contact and instruction from alien visitors. Stories that were the inspiration for the final draft of the bible, but were taken out and literally buried in the sands of time, only to be discovered haplessly by travelers thousands of years later. The progenitors of our civilization were describing aliens encounters, but didn t know how to say that. They just viewed these powerful star-people as gods. All of the great religions seemed to have been formed this way. Why else would humanity be so enthralled and have such a devotion and reverence to anything, if it weren t something absolutely amazing and out of this world. So instead of god being an unknowable, unfathomable force to human kind, lurking in the unknown void of heaven or hell, our gods are the blood spirit and intellectual ancestors and genetic makeup of our own selves. And interestingly, this brings us full circle back to the true-believers who are sure that the bible is a literal translation of the word of god. And looking at it as the experiences with the alien progenitors...
