AmberMac Media, Inc, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.In this book, tech expert Amber Mac and Internet security expert Michael Bazzell provide the ultimate handbook for parenting in today's digital world. From understanding social media concerns to learning about tomorrow's technology trends; from considering app risks to reporting digital bullies; from enabling monitoring solutions to identifying warning signs, this book empowers overwhelmed parents to make smarter online decisions to properly protect their kids. This handbook provides parents new and unconventional tools that allow them to look into their child's online life in a way never possible before. It identifies dozens of free resources that simplify and automate in-depth searching of your child's social network activity. While popular sites such as Twitter, Instagram, and Facebook are covered in detail (including techniques that legally access some hidden content), the book goes much deeper into the online activity that may be exposing your child to unnecessary risk.
