*I just started out looking at this ebook. This can be for those who statte there had not been a worthy of reading through. You can expect to like the way the blogger publish this ebook.*

*(Dr. Freddie Greenholt Jr.)*

**BULLETIN INDIANA. AGRICULTURAL EXPERIMENT STATION, LAFAYETTE VOLUME 236-256**

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 104 pages. Dimensions: 9.7in. x 7.4in. x 0.2in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1920 Excerpt: . . . variations and-- . 31 and . 26; for the factory method, --. 32 and . 63. Both methods check very closely with the chemical determination and are entirely within reasonable limits. curd. --The curd content percentages secured by the different tests are comparable only between the factory and gasoline extraction methods, the official test supplying only percentage of protein (casein and albumin). Table II shows that on the average the factor, one, used in the factory method to designate per cent curd in each sample is, as compared with the gasoline extraction determination, . 15 of one per cent too high. In but four of 24 samples the per cent curd as determined by the gasoline extraction method exceeded one per cent, which means that 83 per cent of the butter tested contained less than one per cent of curd, and that it is safe to use the factor, one, to cover these constituents in a majority of cases. The maximum variation above this factor was. 45 of one per cent, and the average variation of the four samples containing over one per cent curd is. 21 of one per cent. CONCLUSIONS 1. Of the four factory methods used, factory, gasoline extraction, Shaw, and Wright, the gasoline extraction method compared most closely to the official method. 2. The so-called factory method of estimating fat percentage by subtracting from 100 per cent the sum of the percentages of moisture and salt, plus the one per cent allowance made...
