A Manual of Dissections of the Human Body: For the Use of Students, and More Particularly for Those Preparing for the Higher Examination in Anatomy (Classic Reprint) (Paperback)

By R E Carrington

Forgotten Books, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from A Manual of Dissections of the Human Body: For the Use of Students, and More Particularly for Those Preparing for the Higher Examination in Anatomy It has not been found possible in the arrangement of these dissections to classify them under the usual headings of Head and Neck, Upper extremity, Abdomen, and Lower extremity, because many of them would have been included under two or even more of these: in fact, they have often been specially planned with this object, so as to include the border lines of parts which, as they belong strictly neither to one nor the other dissector, are often neglected entirely. Nevertheless, this order has been followed for the most part, and in cases where a dissection involves partly one part and partly another, it has as far as possible been used as an intermediate link between the two. It is taken for granted that the student should have carefully dissected the whole body through before he turns his attention to special dissections.
