Since its launch in 1972, this quarterly journal has been regarded as the world's leading ship modelling publication. Contributors construct a range of dioramas, waterline and working models. Among the articles in this issue, Rodney Jurd describes his construction of the Discovery, one of the three ships which carried the colonists to America in 1607 who set up the Jamestown settlement; Mark Slota explains the building of his model of the Soviet sail-training ship Tovarisch, and Tom Gorman the mechanics of his working model of Mv Shanklin.
