Springer Apr 1990, 1990. Buch. Book Condition: Neu. 235x155x36 mm. This item is printed on demand - Print on Demand Neuware - For a long time I have wanted to put together a book about social and evaluation anxiety. Social-evaluation anxiety seemed to be a stressful part of so many people's everyday experience. It also seemed to be apart of so many of the clinical problems that I worked with. Common terms that fit under this rubric include fears of rejection, humiliation, criticism, embarrassment, ridicule, failure, and abandonment. Examples of social and evaluation anxiety include shyness; social inhibition; social timidity; public speaking anxiety; feelings of self-consciousness and awkwardness in social situations; test anxiety; performance anxiety in sports, theater, dance, or music; shame; guilt; separation anxiety; social withdrawal; procrastination; and fear of job interviews or job evaluations, of asking someone out, of not making a good impression, or of appearing stupid, foolish, or physically unattractive. In its extreme form, social anxiety is a behavior disorder in its own right social phobia. This involves not only feelings of anxiety but also avoidance and withdrawal from social situations in which scrutiny and negative evaluation are anticipated. Social-evaluation anxiety also plays a role in other clinical disorders. For example, people with agoraphobia are afraid of having a panic attack in public in part because they fear making a spectacle of themselves. Moreover, even their dominant terrors of going crazy or having a heart attack seem to reflect a central concern with social abandonment and isolation. 574 pp. Englisch.
