

Abroad Electronics and Communication textbook series: semiconductor wafer cleaning: Science. Technology and Application(Chinese Edition)

Filesize: 4.5 MB

Reviews

These kinds of ebook is almost everything and got me to searching forward and a lot more. It usually does not price excessive. Its been written in an exceedingly basic way and is particularly only following i finished reading through this pdf through which in fact modified me, alter the way i really believe.

ABROAD ELECTRONICS AND COMMUNICATION TEXTBOOK SERIES: SEMICONDUCTOR WAFER CLEANING: SCIENCE. TECHNOLOGY AND APPLICATION(CHINESE EDITION)**DOWNLOAD**

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Pub the Date :2012-07-01 Pages: 350 in Publisher: Electronic Industry Press book edge kc11.21 basic information about the title: Foreign Electronics and Communication textbook series: semiconductor wafer cleaning: Science. Technology and Applications List Price: 98.00 yuan of : Publisher: Electronic Industry Press Publication Date: July 1. 2012 ISBN: 9787121173974 Words: Page: 350 Edition: 1st Edition Binding: Paperback: Weight: 1 Kg Editor's Choice foreign electronic communication textbook series : semiconductor wafer cleaning: Science. Technology and Application both as a College of Electronic Science and Technology. the basis of materials of microelectronics and solid state electronics. optoelectronics and photovoltaic students learning reference books. but also as the newly recruited self-study materials and reference materials for the functional semiconductor industry practitioners. researchers. and related technical personnel. In addition. foreign electronic communication textbook series: semiconductor wafer cleaning: science. technology and application process training materials can also be used as a discrete semiconductor device manufacturing. integrated circuit processing and semiconductor process equipment production company. Summary abroad Electronics and Communication textbook series: semiconductor wafer cleaning: science. technology and applications Introduction: the semiconductor manufacturing process is the key material to discrete devices or integrated system. including the cleaning process is the most commonly used process steps. Abroad Electronics and Communication textbook series: semiconductor wafer cleaning: science. technology and application details with discrete semiconductor devices and VLSI chip manufacturing various wafer cleaning technology. focused on the development process of cleaning technology. The basic principles and practical applications. The book is divided into five parts and thirteen chapters: the first part introduces the semiconductor wafer contamination type. cleaning the course of development and evolution of the technology. as well as the process of the silicon surface trace...
