By National Oceanic and Atmospheric Adminis

Createspace, United States, 2014. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.We operate from the surface of the sun to the bottom of the ocean. NOAA s science, services, and stewardship missions require a synthesis of space, ground, and ocean-based observations from satellites, ships, aircraft, buoys, weather stations, and radiosondes just to name a few. This synthesis, coupled with sound scientific understanding of Earth systems and processes and advance modeling capabilities, is absolutely essential to NOAA s ability to provide critical environmental intelligence to keep the nation informed of the changing environment. NOAA provides weather, water, and climate forecasts and warnings for the private and public sectors. NOAA provides environmental intelligence that decision-makers depend upon to guide decisions they must make every day. To meet that end NOAA must understand and predict changes in the climate, weather, oceans, and coasts. In 2009, the public obtained 301 billion forecasts. Based on an average annual household value of \$286 placed on weather information, the American public collectively receives 31.5 billion in benefits from forecasts each year. When it comes to severe weather preparedness, calculated near-term investments build capacity for drastic savings...
