Brand New Book ***** Print on Demand *****.Cellulite Reduction Made EasyCellulite, a word that haunts men and women alike. What we thought was a medical condition is actually nothing more than amount of fat that is situated beneath the skin. The hallmark bumpy and ugly appearance of cellulite is caused by fat moving against the connective tissue layer of the skin. The result of this irregular force is puckering and sometimes discoloration of the skin. But even with this natural occurrence, cellulite is cellulite. It is ugly, embarrassing and it appears in all the wrong places. Cellulite could be on the arms, the thighs, the calves, and the midsection and in places where visible fat also accumulates. Although there is nothing wrong with developing cellulite it is often removed because of its unsightly appearance. Studies show that millions of Americans year after year spend millions of dollars in removing cellulite alone. People are becoming more conscious about their health and their appearance making it natural to look for ways to permanently remove cellulite. Within these pages, I will explore what cellulite is, the signs of it, why people develop it, and, most importantly, how to get rid of it. I will provide many options for cellulite reduction, both natural and otherwise.
