Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Sound and Colour: Their Relations, Analogies, and Harmonies Painting, as an Art, may be at least on a par with Music; but Music as a Science, is certainly in advance of the fine Arts, its most essential principles admitting of mathematical expression. This last remark, however, has special reference to harmony, for we are still almost quite ignorant of the philosophy of the representative or allegorical power of music; and design and drawing in the arts, as regulated by precept and principle, are much more intelligible than the essential nature of subject and theme in music.
