McGraw-Hill Education - Europe, United States, 2015. Hardback. Condition: New. Language: English . Brand New Book. A research-based portfolio strategy that uses Fed signals to forecast security market performance It s often said that the chairman of the Fed is the second most powerful person in the world, next only to the president of the United States. Some say the chairman is even more powerful. When Ben Bernanke publicly stated on September 8, 2013, the Fed s intent to continue its policy of quantitative easing, global markets instantly reversed direction from a worrying downward spiral to an exuberant upward surge. Even POTUS can t do that. The authors of Invest with the Fed take the simple position that correct interpretation of Federal Reserve policy actions leads to better investing decisions. To this end, they present strategies that will help you design a portfolio that takes Fed policy into account. The result of three decades of research, Invest with the Fed reveals how the nation s bank routinely signals important clues about its future policy--and it explains how you can use these clues to enhance your portfolio performance. Learn all there is to know about the implications that Fed policy changes have for: Value and growth investing Behavioral and EMT approaches Alternative assets Sector rotation International stocks Hedge funds Fixed income securities If Warren Buffett revealed a nugget of information about one of his future investments, you would likely act upon it. So why wouldn t you act upon information revealed by the institution that controls the U.S. financial markets? This is the book you need to adjust your investing strategy to take into account advice from the most influential financial institution in the world--the U.S. Federal Reserve. PRAISE FOR INVEST WITH THE FED This book is packed full of...
