Excerpt from Field Hearing on Air Force Science and Technology Programs: Field Hearing Before the Tactical Air and Land Forces Subcommittee of the Committee on Armed Services, House of Representatives In the area of defense spending, our Armed Services Committee in the House has the responsibility for the largest discretionary portion of our federal budget dollar. My good friend and colleague, Duncan Hunter, chairs the full committee and we have just now completed the conference process with the Senate on a bill that will authorize approximately \$400 billion of your money for our nation s defense. This particular hearing is a subcommittee hearing which I chair on air and land, so that my portion of the defense budget, which primarily focuses on research and development (rd) and procure ment, oversees those programs within those categories.
