

Testing Children: A Practitioner s Guide to the Assessment of Mental Development in Infants and Young Children (Hardback)

By Phyllis Preston

Hogrefe Publishing, Canada, 2006. Hardback. Condition: New. New.. Language: English . Brand New Book. This book is written by an experienced psychologist specialising in the development of infants and young adults and aims to help practitioners to achieve accurate results and reach conclusions best suited to the particular needs of the child under assessment. The book is divided into 3 sections, with the first being an exploration of the nature of mental development. It discusses different theoretical perspectives of mental measurement, including the history of mental measurement, concept of the mind and psychology of communication. Key theoretical issues that are prerequisites for an effective assessment are highlighted. Useful examples based on day-to-day practice are quoted, e.g. reasons that should be considered when a child is uncooperative during tests. The second section is a guide to psychometrics. It includes the explanation of the essential statistics required to interpret test scores, specific information regarding the nature and function of measurements, the normal distribution curve and its relation to IQ values. There is also a chapter specifically introducing and comparing different tests of mental development. The last section focuses on the skills needed by practitioners for effective assessment of young children. The author explains how...

Reviews

It becomes an incredible publication that we actually have at any time read. It is one of the most incredible book i actually have go through. I am just delighted to tell you that this is actually the finest pdf i actually have read through within my personal life and might be he finest publication for actually.

-- Prof. Hilma Robel

This pdf might be really worth a go through, and far better than other. It can be packed with wisdom and knowledge Its been written in an exceedingly straightforward way and is particularly only soon after i finished reading through this pdf by which basically changed me, modify the way in my opinion.
