From Morrow the preglacial Todd s Fork continued west to South Lebanon in the valley now occupied by the Little Miami. Just west of the last named village a small stream, having its headwaters near Fosters, flowed north and then northwest through the present valley of Muddy creek and soon united with the ancient Todd s Fork, which from South Lebanon flowed northwest through the valley of Turtle creek, and thence into the valley of the present Great Miami at Middletown. From the col at Fosters a stream flowed south through the valley now occupied by the Little Miami. The change from these early conditions to the present is not difficult to explain. The margin of the ice sheet, known as the early Wisconsin, crossed the old valley just west of South Lebanon and also the valley of the present Miami between Oregonia and Waynesville. This completely blocked the old courses of these streams, and, ponding the waters in front of the ice, formed small lakes. One of these lay between the ice front and the col near Ft. Ancient. Gradually the waters in this, small lake rose higher and higher until they crossed the col and started on their southerly course. While this was happening a much larger lake was forming in the Todd s Fork valley. This lake extended from the margin of the ice west of South Lebanon up the valley of Todd sFork beyond Morrow. These waters...
