While the Gods Slept brings together many of the disparate anomalies, myths, and religious beliefs that confound and confuse those who would like answers to age-old questions. The story begins some four hundred thousand years into our past when a great civilization occupied this planet. After a great cataclysmic event, the few survivors begin a project to rebuild and repopulate the Earth. Their efforts are recorded throughout the book, but there is a parallel story. Aided by a growing number of scientists and researchers around the world, Simon s story slowly comes out. He answers questions that have plagued curious minds for ages. Some of the answers are difficult to accept. Others are completely outrageous to his listeners. All responses he shares come straight from information programmed into his DNA thousands of...
