Reviews

This published publication is wonderful. Of course, it is actually engage in, still an interesting and amazing literature. It is extremely difficult to leave it before concluding, once you begin to read the book.

After hitting a hunky stranger with her rented Prius in the wilds of Alaska, Kendra hardly expected to end up in bed with him. Even less did she think to find herself pregnant a few weeks later. But when she goes back to the cold north to tell the gruff, mysterious Lorne that hes going to be a father, she discovers that the surprises in her life are just getting started. Werebear Alpha Lorne would never have let the luscious, curvy Kendra out of his sight if not for the battle raging within his den. But when the fiery, independent human woman returns carrying his child, he wont allow her to leave again. Even if it means seducing her until she sees how good they are together. Even if it means fighting his own den to keep her at his side.
