ARCHITECTURAL MODELMAKING

Laurence King Publishing. Paperback. Condition: New. 208 pages. Dimensions: 11.2in. x 8.5in. x 0.8in. The physical model is an important communication tool for architects. Although the proliferation of CAD programs has enabled the creation of increasingly complex computer models and virtual environments, there is also a growing need to address the three-dimensional qualities of architecture that may be lost when using such media. This book focuses on the inspiring possibilities for modeling the built environment with all the different media and...

Reviews

The book is great and fantastic. Better than never, though I am quite late in starting to read this one. I realized this publication from my dad and he advised this ebook to find out.

A fresh ebook with a brand new point of view. It is definitely simplistic but surprises in the fifty percent of your ebook. It has been designed in an extremely basic way and is particularly just soon after I finished reading this ebook where in fact it altered me, changing the way I really believe.
