It is a single of my personal favorite publication. It usually fails to charge an excessive amount of. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from North Carolina Education, Vol. 10: September, 1915 Our box of objects for number work contains acorns, buttons, spools, shells, pebbles, and the like. We have a number of supplies with which to teach numbers. I wished to teach the number to ten by sight and desired objects large enough for the pupils to observe readily. The pupils collected the spools and strung them! In groups - one, two, three, etc., up to ten. I hold a group of spools before the class and the pupils call the number represented. We then add, subtract, multiply and divide the group. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
