In recent decades, psychologists have uncovered how and why our innate socialness holds huge sway over how we think and act, propelling us to both high achievement and unthinking cruelty. We are beholden to our peers, even when we think we're calling the shots. This is the power of others. In this captivating work, science writer Michael Bond investigates the latest breakthroughs in social psychology to reveal how to guard against groupthink, build better teamwork, identify shared objectives, become more ethical, and survive moments of isolation.
