With that said BODY LANGUAGE is one of the least studied yet most important aspects of communication. Over 60% of your message is delivered through non verbal / physical cues that your body gives off. This book will focus on the different aspects of non-verbal communication, the specific movements and signs to look for. The book is divided into chapters that deal with the main areas of the body where non-verbal signals can be found. These areas are; the head and eyes, the arms and hands; the legs and feet. Of these one of the most significant areas in non-verbal communication are the hands and these are examined in most detail. The last part of the book deals with issues that are related to body language and have an impact on how we establish relationships with other people; these chapters are shorter and designed to place body language in context, as well as help you to develop a broader understanding of how to use and read body language effectively.
