

The Nature of Matter and Electricity: An Outline of Modern Views (Classic Reprint) (Hardback)

By Daniel F Comstock

FBC LTD, 2018. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Nature of Matter and Electricity: An Outline of Modern Views
 Something must be said in explanation of the arrangement of the book. It consists of two parts, the first giving a rapid survey of the entire subject, outlining the fundamental conceptions and emphasizing their most significant applications only, While the second retraces the same general field in a slower and less connected way, in order to consider details omitted in the more cursory treatment. The second part is divided into fifty six sections, each of which is numbered and referred to by its number in the appropriate connection in Part I. The book may be read in various ways according to the purposes or pleasure of the reader. If he is interested only to acquaint himself with the fundamentals of the modern theory through a quick, general sketch he may read Part I continuously and omit Part II altogether. If, on the other hand, he is already familiar with these essentials he may prefer to reverse the procedure and omit Part I. Part II although definitely divided by topics...
