Reviews

An incredibly awesome publication with perfect and lucid reasons. It can be written in simple phrases and not confusing. I am just delighted to let you know that this is actually the very best publication I actually have studied during my very own lifestyle and could be the best publication for actually.
(Paula Gutkowski)

Bloomsbury Publishing PLC, United Kingdom, 2016. Paperback. Condition: New. Language: English . Brand New Book. London Transport was created in 1933 to coordinate the shambolic, overlapping transport systems of the capital, and for decades has striven to meet the challenges of organising London travel. Now operating as Transport for London (TfL), it continues this demanding work. In this fully illustrated volume, Michael H. C. Baker presents the complete story of the organisation from its origins, through the upheavals of the Second World War, to TfL's biggest modern project - Crossrail. Covering modes of transport including trams, trolleybuses, the iconic RT and Routemaster buses and the trains of the Underground, this is an essential guide to London's world-famous transport operator.
