Shadow Factories: Britain's Production Facilities During World War II

By David Rogers

Helion & Company. Paperback. Book Condition: new. BRAND NEW, Shadow Factories: Britain's Production Facilities During World War II, David Rogers, Wartime is costly. Whilst the human cost is a burden which remains part of our every waking thoughts for many years after the end of the conflict, the physical cost, at least in some cases, is easier to deal with. Some, if not most of the physical cost of war, is spent in the constant supply of materials including armaments and machines to the troops - wherever they happen to be fighting. Of course the Services have always needed supplies of uniforms, equipment and machines. However, the rate of expansion of the Services and the rate of consumption of armaments increases dramatically in wartime. Pre-war traditional manufacturers simply could not cope with the sudden increase in orders. The only solution was to fabricate what was needed, in the Second World War at least, in additional factories. Shadow Factories was the term used to describe the use of third party factories and equipment used to manufacture components or complete units which were then passed on to the Services. These units could be anything from tanks, parts of aircraft to small pumps...

Reviews

Very good electronic book and useful one. it absolutely was writtern extremely completely and useful. You will not feel monotony at at any moment of your respective time (that's what catalogs are for relating to when you question me).

-- Prof. Noah Zemlak DDS

It in a single of my favorite pdf. Yes, it is engage in, still an amazing and interesting literature. It is extremely difficult to leave it before concluding, once you begin to read the book.
