Lulu.com, United Kingdom, 2016. Paperback. Book Condition: New. 210 x 148 mm. Language: N/A. Brand New Book ***** Print on Demand *****.I don't believe in free will. Don't be scared, everything will be okay. Our lives are determined by choices we already know the answers to. It was at the point of the big bang that our lives began. Each and every one of us began our journey that day, and the paths we now walk on, and the footsteps we leave behind, will continue for all eternity. Each person we meet and interact with along the way tread their own road and the sparks we create with them at those intersections we call relationships begin new moments that we'll never even see. This book that you hold in your hands was being written long before I was created. If you manage to make it through to the end or whether you merely read the first few pages, I want you to know that these words come from something more than me, an essence I myself have not quite come to understand. This book that you hold in your hands was being written long before I was created, and the words that I speak will last forever.
