Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. God has always used the technology of the generations to advance His Kingdom. Whether it was the staff of Moses, the sling of David, the boat, and net of Peter, God has always worked through technology to manifest His purpose in the world. Technology has become so much of our daily lives that it is our daily lives. Most of us are logged in and a part of a vine/thread, trend, blog or post that directly ties us to the conversations on issues of the world and do so without considering technology itself as a sign for the Kingdom of God. As such, we allow technology to abuse us to the extent that we remain subject to it. Even the concept of the E-Church has yet to catch on to the need to preach and to teach about today s technology as a tool for God s plan. In this book, I will begin to lay out, as best as I can, the Revelation of Technology for the end time church. I will be usurping all logical conventions, overriding intellectual assertions, challenging religion and reason to share with you what God has put in my heart about technology.
