Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The English Civil War (1642-1651) was a series of armed conflicts and political machinations between Parliamentarians (Roundheads) and Royalists (Cavaliers). The first (1642-46) and second (1648-49) civil wars pitted the supporters of King Charles I against the supporters of the Long Parliament, while the third war (1649-51) saw fighting between supporters of King Charles II and supporters of the Rump Parliament. The Civil War ended with the Parliamentary victory at the Battle of Worcester on 3 September 1651. The Civil War led to the trial and execution of Charles I, the exile of his son, Charles II, and replacement of English monarchy with first, the Commonwealth of England (1649-53), and then with a Protectorate (1653-59), under Oliver Cromwell's personal rule. The monopoly of the Church of England on Christian worship in England ended with the victors consolidating the established Protestant Ascendancy in Ireland. Constitutionally, the wars established the precedent that an English monarch cannot govern without Parliament's consent, although this concept was legally established only with the Glorious Revolution later in the century. This compilation is specially formatted with a Table of Contents linking to the main documents of the English Civil War, including the Leveller Petition and An Agreement of the Free People of England.
