

Machine Design Training (mechanical engineering in the 21st century vocational and technical education planning materials)

Filesize: 6.45 MB

Reviews

This pdf is very gripping and fascinating. We have read and that i am certain that i am going to going to read once more again in the future. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Burnice Cronin)

MACHINE DESIGN TRAINING (MECHANICAL ENGINEERING IN THE 21ST CENTURY VOCATIONAL AND TECHNICAL EDUCATION PLANNING MATERIALS)

To save **Machine Design Training (mechanical engineering in the 21st century vocational and technical education planning materials)** PDF, please follow the hyperlink below and download the ebook or have accessibility to additional information that are in conjunction with MACHINE DESIGN TRAINING (MECHANICAL ENGINEERING IN THE 21ST CENTURY VOCATIONAL AND TECHNICAL EDUCATION PLANNING MATERIALS) book.

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 215 Publisher: Southwest Jiaotong University Pub. Date :2007-08-01 version 1. This book is based on the Ministry of Education. the Vocational Education and Teaching Mechanical Design basic requirements mechanical combination of higher vocational colleges professional foundation courses for mechanical design and the specific requirements of the original intention of writing. and highlights the characteristics of vocational education. and implement the latest national standards and norms. The book is three seventh chapter. First. the mechanical design basic experiments; second. Machine Design course design; third. commonly used in mechanical design reference standard and reducer legend. With a review of each chapter are questions and thinking. Book content concise. concise narrative. practical. reflecting the editor for many years of teaching experience and practical ability. This book is a vocational machinery. almost machine-based mechanical design specialty course training materials. but also for the engineering and technical officers. Contents: Introduction of Machine Design first experimental chapter material tensile. compressive. torsion. torsion. bending and impact test Section II reversed tension and compression test experiment experimental Section III bending impact test review Chapter questions and thinking Determination of electrical measuring elastic modulus. Poisson's ratio and the bending normal stress test section electrical measuring method for the determination of low carbon steel elastic modulus E and Poisson's ratio μ experiment II electrical measuring method Determination of the bending beam and thinking positive stress test review questions Chapter mechanical principles and mechanical parts diagram of experimental section plane kinematic mapping II of involute tooth profile experiment developed into the third quarter involute spur gear parameters Experimental determination of the structural analysis of fourth gear and turn off pieces of rigid loading experiments in section V of...
