Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Love Vs. Marriage, Vol. 1 Although conjugal harmony always exists for nature as well as for man in some parts of the earth, it is chiefly in the month of May that beings enter into love in our climates. The sun, which is its first moving spring, is toward the middle of this month at twelve degrees from the equator, and at about thirty-six degrees from us, and the moon at twelve degrees south, which puts between these two stars a distance equal to the half of the torrid zone. We then receive a part of its influence as we receive it entire, when toward the end of June, the sun in the summer solstice, and the moon in the winter solstice, embrace the whole space enclosed between the tropics. Not only does the sun in summer dilate our atmosphere, but he must exert the same power on the sea. If heated fluids rise in a thermometer, ocean must rise in its basin and increase its curve. If a rod of iron grows longer when heated, thus the crust of the terrestrial hemisphere, filled with minerals, must dilate, and the flow of the waters be strongest toward the Opposite hemisphere. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
