

Classical Diffusion: Theory and Simulation Codes (Classic Reprint)

By Harold Grad

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Classical Diffusion: Theory and Simulation Codes This report is the written version of a talk presented by William Grossmann at the Varenna Workshop on High Beta Plasmas at Varenna, Italy, September 1977. It presents some of the highlights of the extensive theoretical and numerical program on plasma equilibrium, transport, and adiabatic processes, including an outline of some of the simulation codes which have been developed to implement this body of work. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
