By Shelley Gaskin, Zackary Hubbard, Joyce Thompson

Pearson Education (US), United States, 2017. Paperback. Condition: New. Language: English . Brand New Book. GO! with Edge Getting Started provides a brief overview of the essentials of Microsoft's new browser. Using scenario-based instructional projects students learn about the core functionality of using Edge effectively for faster, safer, and more competent browsing. In today's fast-moving, mobile environment, the GO! with Office 2016 series focuses on the job skills needed to succeed in the workforce. With job-related projects that put Microsoft Office (R) into context, students learn the how and why at the moment they need to know, all in the appropriate Microsoft procedural syntax. For Office 2016, the hallmark guided-practice to skill-mastery pathway is better than ever. Students have many opportunities to work live in Microsoft office to apply the skills they've learned. In addition, these learning objectives are presented in project-based scenarios that prompt students to prove mastery in the context of real-world application. MyITLab for this text provides students and instructors with access to the eText, chapter quizzes, testbanks, and other instructor resources.
