# Facebook Application Development with Graph API Cookbook

By Shashwat Srivastava

Packt Publishing. Paperback. Condition: New. This item is printed on demand. 350 pages. Over 100 recipes to create your own exciting Facebook applications at an incredibly fast pace with Facebook Graph API. Dive headfirst into Facebook application development with the all new Facebook Graph API. Packed with many demonstrations on how to use Facebook PHP and JS SDKs Step by step examples demonstrating common scenarios and problems encountered during Facebook Application Development. Houses an exquisite collection of ready to use Facebook applications. In Detail With a user base of nearly 600 million people, Facebook is the number one social networking platform. Applications can be created to interact with this huge user base in various ways both inside and outside Facebook. These applications, if developed effectively and efficiently, offer a free medium for promotion and publicity of a product or an organization. Facebook Application Development with Graph API Cookbook covers both the concepts and implementations necessary to develop Facebook applications and provides ready to use code for common scenarios faced by a developer while creating these applications. It incorporates the newly launched Facebook Graph API and also presents the reader with some intuitive ready to use applications. This book guides the...

Reviews

The book is great and fantastic. It is probably the most remarkable pdf i have got read through. You can expect to like the way the article writer compose this ebook.
-- Mr. Ethel Schmeler

A brand new eBook with a new standpoint. I have got read through and i also am confident that i will gonna read again once again down the road. Once you begin to read the book, it is extremely difficult to leave it before concluding.
