

Solution of a Non-Linear Integral Equation Appearing in the Theory of an Aerosol: A Memorandum Submitted by the Applied Mathematics Group, New York University to the Applied Mathematics Panel, National Defense Research Committee

By B Friedman

Forgotten Books, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Solution of a Non-Linear Integral Equation Appearing in the Theory of an Aerosol: A Memorandum Submitted by the Applied Mathematics Group, New York University to the Applied Mathematics Panel, National Defense Research Committee An aerosol is a suspension of liquid particles in air, such as vapor or smoke. By mutual collisions, particles will coagulate; by gravity, particles will settle on the ground and disappear from the aerosol. The problem is to determine the number $n(r, t)$ of particles of radius R at any time T , provided that the probability of collision and that of settling are known and that the number N of particles of radius R at the time $T = 0$ is given as a function of R . About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
