Textbook of Toxicology

By Balram Pani

I.K. International Publishing House Pvt. Ltd., 2010. Paperback. Book Condition: New. 16cm x 24cm. Toxicology is an interdisciplinary that requires the knowledge of many areas such as analytical chemistry both organic and inorganic, biochemistry, pathology and physiology. The book is designed to provide a wide ranging, overview of the various toxicants and their effects on living organisms particularly of human beings. The book also provides the fundamental knowledge of the principles related to toxicology, chemical toxicology, environmental toxicology and related sciences, so as to meet the challenging requirements of students as well as teachers in environmental sciences, pharmacological, medical, veterinary, biomedical science and toxicological sciences. All essential aspects of toxicology have been covered in this book. It comprises 18 chapters in a logical sequence. Toxicology is distinguished by up-to-date insight into the harmful interactions between chemicals (xenobiotics) and biological synthesis. It gives better understanding on acute toxicology risk assessment, toxicity testing and many other areas directly or indirectly related to toxicology.

Reviews

Thorough manual! Its this kind of excellent study. It really is written in straightforward terms and never difficult to understand. I am very happy to inform you that this is basically the very best pdf we have read through during my individual existence and could be the greatest ebook for possibly.

-- Dr. Arno Sauer Sr.

Totally among the best publication I actually have actually go through. It can be filled with wisdom and knowledge Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Glen Ernser
