

A revolution in family policy: Where we should go from here (Paperback)

By Clem Henricson

Policy Press, United Kingdom, 2012. Paperback. Condition: New. Language: English . Brand New Book. This book offers a radical rethink of family policy in the UK. Clem Henricson, the family policy expert, analyses in detail the major shift in the role of the state viz a viz personal relationships in recent years, with its aspirations to reduce child poverty, increase social mobility and deliver social cohesion. Brought in by New Labour and carried forward, albeit in diluted form, by the Coalition, Henricson asks whether this philosophy of social betterment through manipulating the parent-child relationship is appropriate for family policy. She challenges the thinking behind the expectation that you can change a highly unequal society through the family route. Instead the argument is made for a family policy with its own *raison d'être*, free of other government agendas. A premium is set on the need to manage the multiple core tensions in families of affection, empathy and supportiveness on the one hand and aggression, deception and self interest on the other. A set of coherent support and control policies for family relations are developed which endorse this awareness and embrace a fundamental shift in perspective for future progressive governments.
