DEVELOPMENT & COMPARISON OF BLIND CLONING IN DIGITAL IMAGE FORENSICS

Condition New. Publisher/Verlag: LAP Lambert Academic Publishing | This book dealt with the state-of-the-art methodologies available in the field of digital image forensics. The prime focus of the research presented in this book is on blind cloning detection where no active watermarking scheme is involved in image. The goal of this research is to first analyze the previously developed cloning detection methods and to focus on where each methodology lacked. In this research two main branches of blind cloning detection...
