FOREST MANAGEMENT AND PLANNING

Academic Press. Hardcover. Book Condition: New. Hardcover. 360 pages. Dimensions: 10.9in. x 8.4in. x 1.1in. This book provides a focused understanding of contemporary forest management issues through real life examples to engage students. The methodology for the development of quantitatively-derived forest management plans - from gathering information to the implementation of plans at the forest level - are explicitly explained. Emphasis is placed on the development of the traditional commodity production forest plans using linear programming, the development of alternative forest..
