By Jacob Biggle

Read Books, United Kingdom, 2008. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.In all authentic history of the human race, we find the horse mentioned as the servant and companion of man. When the horse was first domesticated is not known, nor do we know of what country he is a native. Central Asia, Arabia and Central Africa each claims this honor, and we will not dispute the claims of either. In the time of Moses, horses were used in Egypt and later on, Solomon kept and used large numbers of them from Jobs vivid description it is evident that they were used and well bred in the countries farther east. Horses are represented in the carvings on the ruins of ancient Ninevah and in the marble friezes of the Greek Parthenon. When the Romans invaded Britain, they found the natives using horse of superior quality, and took some of them back to Rome. It is supposed that the Spaniards brought horses to South America as early as 1535, and that soon afterwards others were shipped to Paraguay.
