Mankind now has the power to harness the fires of Hell. Terrorism may strike at any time, and in any place. A billionaire industrialist has tasked himself with the destruction of the human race. This is to allow the unfettered supremacy of artificial intelligence. A computer science student from Scotland is drawn into his cult, and then frees himself from its grasp when he discovers their true agenda. Human vivisection, spontaneous human combustion and entombment while alive are some of the themes of this story. From the paradise of bisexual orgies to the fires of Hell. It s an amazing tale. But the most frightening thing is that it presents a credible scenario. It will answer the question, Are human beings now obsolete and will Homo sapiens be superseded by machines? The battle has begun for the fate of the Earth. Would you sacrifice yourself to the terrors and the fires of Hell to save your loved ones and the planet? One day you may be asked to. Be ready.
