CODE NAME LUCY (PAPERBACK)

Createspace Independent Publishing Platform, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Back in 1979 something odd happened in the southern sub-Antarctic Indian Ocean. On September 22, one of the orbiting US Vela Hotel spy satellites registered a double flash indicating that an atomic bomb detonated close to the Prince Edward Island Group, 1,176 nautical miles south of Cape Town and belonging to South Africa. The hunt was on for the South African nuclear weapons rumoured to be in existence and tested there. In March 2010, one of the orbiting South African spy satellites picked up a flash report coming from a SOSUS line of unknown origin in the same area. There should not be any such messages and it is very alarming. Prince Edward Island is not habituated by humans, Marion Island close by has a weather station that is manned but neither they nor the South African Navy is aware of the SOSUS line. From a military viewpoint, whoever controls that SOSUS line will control the Cape of Good Hope sea route, the major artery between East and West. If that line is activated and operating as designed to do, the West has automatically lost any future war. All depends on who controls the suspected SOSUS line if it exists and that is what Angelique Dawson and her team are trying to uncover and deal with promptly. In Code Name Lucy, we take a hard look at the Chinese Navy, a real threat to the West and highly rated, make no mistake. They have good ships, good crews and officers and excellent weapon systems. For instance, the Chinese Aegis destroyers will pick up and in all probability, engage and destroy any F-22 / F-35 at 200 miles. This is a researchable fact....
