

What Can Animal Communication Tell us About Spoken Language Processing by Mind and Machine?

By Antje Bothin

GRIN Publishing Okt 2015, 2015. sonst. Bücher. Condition: Neu. Neuware - Essay from the year 2007 in the subject Speech Science / Linguistics, grade: 1, University of Sheffield, language: English, abstract: In this essay, it is described what animal communication can tell us about spoken language processing by mind and machine. First, it is explained how animal behaviour influences the human side. Then it is shown what can be learnt on the machine side. In conclusion, it can be said that the study of animal communication provides scientists with clues for creating theories of human speech evolution. However, more research in the future is necessary to underpin these theories. A number of questions still remain unsolved. The same is true on the machine side for the development of applications that copy animal techniques. 20 pp. Englisch.
