

Astronomy in Minutes: The Night Sky Explained in an Instant

By Sparrow, Giles.

Quercus. 1 Paperback(s), 2015. soft. Book Condition: New. What happens when a star dies? How many asteroids are in our solar system? What is dark energy? From Trojan asteroids to stellar black holes, from superclusters to cosmic microwave background, this chunky little introduction to astronomy takes readers on an entertaining tour around the universe. It begins with the specks and constellations that we see in the night sky, then zooms in on the objects and matter beyond the naked eye. In concise, two-page entries, it explains these topics in a way that makes them easy to understand. Many of the articles are illustrated with black and white photos, drawings, or diagrams. 416.
