Book from beginning to end. trying through a complete example to elaborate the different Java application technology. The book specifically including: Java Language Summary of the Java programming environment. Java programming basic structure. memory management and recycling. SUMMARY This textbook is written specifically without any programming basics. but want to learn Java programming. starting from the configuration programming environment takes the reader step by step into the world of Java. Not too jerky language textbooks go about the concept. but as far as possible through the easy-to-understand language. plain instance explain leads to related concepts starting from the instance. so that readers really only understand the essence of the Java language. and the establishment-oriented the object programming ideological. Finally. through the learning of graphics programming. either to review the Java front learning knowledge to write your own window applications. they can enjoy. The textbook from the beginning to the end. trying to elaborate different Java application technology through a complete example. In the end. again to show the charm of Java completely. so that the reader read this textbook kind of seamless feel. The popular image and vivid multimedia teaching CD for the user. paving the Tao of...
