# BIOMECHANICS OF CELL DIVISION

Springer. Paperback. Book Condition: New. Paperback. 374 pages. Dimensions: 9.6in. x 6.7in. x 0.9in. There are virtually hundreds of life scientists publishing hundreds of papers a year on numerous aspects of the cell cycle. The following are few of the topics covered: cell membrane organization, membrane components, cytoskeleton and associated proteins, cell motility, actin in dividing cells, surface modulating assemblies, microfilaments, microtubules, cleavage furrow, fusion, etc. In all these topics, life scientists talk about, among others, the forces within the system, the...

## Reviews

*This kind of publication is every thing and taught me to seeking ahead and a lot more. It really is rally interesting throgh reading through time. I realized this ebook from my i and dad recommended this publication to understand.*

-- **Dax Herzog**

*Completely essential read publication. It is really basic but excitement in the fifty percent of the book. You will not really feel monotomy at anytime of your respective time (that's what catalogues are for about in the event you ask me).*

-- **Lexie Paucek PhD**

*This is actually the very best publication i have read through till now. It is definitely simplistic but unexpected situations in the 50 % in the pdf. You can expect to like just how the article writer compose this pdf.*
