

God and Stephen Hawking: Whose Design is it Anyway?

By John C. Lennox

Lion Hudson Plc. Paperback. Book Condition: new. BRAND NEW, God and Stephen Hawking: Whose Design is it Anyway?, John C. Lennox, 'The Grand Design', by eminent scientist Stephen Hawking, is the latest blockbusting contribution to the so-called New Atheist debate, and claims that the laws of physics themselves brought the Universe into being, rather than God. In this swift and forthright reply, John Lennox, Oxford mathematician and author of 'God's Undertaker', exposes the flaws in Hawking's logic. In lively, layman's terms, Lennox guides us through the key points in Hawking's arguments - with clear explanations of the latest scientific and philosophical methods and theories - and demonstrates that far from disproving a Creator God, they make his existence seem all the more probable.
