Quranic Keywords: A Reference Guide analyzes basic keywords contained in the Quran revealed to the Prophet Muhammad. The dominant vocabulary in the modern world is that of the secular-Christian and Western ideology and its institutions. In order to appreciate the message of the Quran understanding the concepts which each Quranic term conveys is essential. The author maintains that unless these concepts are fully understood, one cannot benefit from and be inspired by the Quran. He has selected over 140 words and provided explanatory notes on each of them. These will help to clarify and provide better understanding about the dynamic ideas portrayed in the Quran. The book will be a valuable tool especially for those who do not know Arabic and try to understand the Quran through translations.
