

General Theory of Polyconic Projections Volume 57

Filesize: 6.91 MB

Reviews

Great electronic book and valuable one. It really is simplistic but surprises within the fifty percent from the book. Its been printed in an extremely simple way in fact it is merely right after i finished reading this publication by which in fact modified me, change the way i really believe.

(Dr. Bethany Lindgren)

GENERAL THEORY OF POLYCONIC PROJECTIONS VOLUME 57

DOWNLOAD

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1919 Excerpt: .Twith the same two lines, respectively. With regard to the two circumferences S and T, we should have to point out the same properties that were pointed out as obtaining between the two circumferences S and O. It will be sufficient to indicate the following facts: Since if lies on the parallel circle which is the locus of points with distances from P and P in the ratio DP to DP , the ratio of MP to MP is the same as that of DP to DP ; therefore, the line MD is the bisector of the angle PMP , and it should pass through the mid-point G of tne arc PG P ; then the three points M, D, G are in a straight line; the same is true of the three points D , M, G, as also of G, D, M and of G , M , D . The three points D , G, G are thus the vertices of a triangle the altitudes of which intersect in D and the feet of these perpendiculars are at O, M , and M. Let us construct the angle POI equal to that which the meridian PMP makes with the straight line meridian PP ; the three points P , G, I will be in a straight line, Fig. 31.--Geometrical relations between orthogonal meridians and parallels, second figure. because the angle OP G which subtends the arc PMG upon the circumference T is equal...
