They claim they can provide a high quality education to the non-traditional students who may struggle to academically succeed in a traditional college setting- But are for-profit colleges everything they make themselves out to be Research shows 90 of the money made by for-profit colleges come from the financial aid granted to students by the government. The majority of students paying late on their loans are for-profit college students. Coincidentally, the majority of for-profit colleges have extremely low graduation rates.
